EXPERIENCE

IPUSHPULL

Front-End Developer | since April 2019

Migrated the main web app from AngularJS to Vue and build a reusable component architecture to use throughout other integrations such as Symphony and Microsoft Teams. Implement a continuous integration while running tests using Cypress and Bitbucket Pipelines.

Amigo Partnership

Front-End Developer | August 2015 - April 2019

I was working in a small development team of 6 to create and develop a bespoke CMS using AngularJS and our own API using GraphQL/Rails. I am responsible for leading a team to deliver a bespoke CMS and web app (including a native app, using Cordova), on a range of clients, such as, Rolls-Royce, O2 and Xcina. I am assisting with the growth of the company, to help improve the workflow and production throughout the development team in order to work more efficiently.
